

Hematron 3 Plus

Haematology Analyser

Innovative Life Solutions from Prestige Diagnostics

The Hematron 3 Plus is a 3-part differential haematology analyser capable of performing 18 parameters with 3 histograms. This model comes with a large, user-friendly 8" (20.32cm) touch-control interface screen. With two counting chambers, the Hematron 3 Plus offers 60 sample throughput per hour.

A small foot print makes it an ideal analyser to have in routine laboratories, doctors offices, emergency clinics and as a back-up analyser in large centres.

- ◆ **3 Part diff Analyser**
- ◆ **18 parameters and 3 Histograms**
- ◆ **2 measurement channels**
- ◆ **60 Tests per Hour**
- ◆ **Inbuilt QC Programme**
- ◆ **400,000 sample memory**
- ◆ **Venous and predilute mode**
- ◆ **RS232, USB and Network interfaces**

Who are Prestige Diagnostics?... Established in 2012 Prestige Diagnostics is a rapidly expanding, innovative primary diagnostics manufacturer based in the United Kingdom specialising in the manufacture, development and sales of a large range of clinical diagnostics and point of care products for a global market. Our product range is exported and marketed through an expanding network of distributors in 60 countries and growing. In countries where Prestige Diagnostics is not as yet represented, deliveries are made directly from the company's UK headquarters. We are committed to supplying quality products to international standards.
