

# COVID-19 Neutralising Antibody Rapid Test (Post-vaccination)

**Whole blood (including finger prick) serum and plasma sample**  
**Easy to use - no analyser required**  
**Store at room temperature or refrigerator**

The 2019-nCoV Neutralising Antibody Device is a rapid chromatographic immunoassay intended for the qualitative detection of neutralising antibodies against SARS-CoV-2 spike protein receptor binding domain. It is intended for use as an aid in identifying individuals with an adaptive immune response to SARS-CoV-2 generated through various vaccination programs.

## Product Features :

- Ideal for Point-of-Care testing
- Visual results available in just 10-15 minutes
- 25 complete tests in one kit.  
All accessories included
- 98.2% accuracy
- 97.8% sensitivity
- 98.5% Specificity

**RADCOV8** - Neutralising Antibody Rapid Test - 25x Test Kit
